

Fund Objective

The investment objective of the Property Index Tracker portfolio is to replicate the price and yield performance of the FTSE/JSE SAPY Index by holding a portfolio of securities substantially equivalent to the basket of securities comprising the Index in the same weighting as the Index.

Why choose this fund?

Property Index Tracker Collective Investment Scheme in Securities, **PropTrax SAPY**, is an Exchange Traded Fund (ETF) which tracks the performance of the FTSE/JSE SAPY Index. The benefits of PropTrax SAPY are the following:

- Cost-effective
- Accessible
- Diversified
- Own the top SA listed commercial real estate stocks
- Tight buy and sell spreads
- Transparent
- Flexible
- No prescribed fixed investment period
- Offers quarterly distribution
- Useful asset allocation tool for professional investors

Disclaimer

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of the participatory interests may go down as well as up and past performance is not necessarily a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commission is available on request from the company/scheme. Commissions and incentives may be paid and if so, would be included in the overall costs. Exchange Traded Funds (ETFs) are Collective Investment Schemes in Securities that trade on stock exchanges. Trading in ETFs will incur the normal costs associated with listed securities including brokerage settlement costs, Uncertified Securities Tax (UST), other statutory costs and administrative costs. The price at which ETFs trade on an exchange may differ from the Net Asset Value price published at the close of the trading day, because of intraday price movements in the value of the constituent basket of securities. Property Index Tracker Managers (Pty) Ltd is a Member of the Association for Savings & Investment SA.
